

Hightower

The Breeze Collection of coffee and side tables, designed by Monica Förster, was inspired by a soft summer breeze creating small waves in a table cloth, conveying a memory of a lazy summer day. Available in two sizes and two different heights, you can pair Breeze tables together for a fun and interesting combination that adds character to any space. Ash wood top available in Black or White Lazur finish with matching lacquered steel base. Available with or without the “wave” detail.
