

Hightower

Inspired by the organic, soft lines found in nature, Nadia combines natural materials, time-honored woodworking techniques, and the latest technologies to deliver a chair that's as functional as it is stunning. Exposed finger joints transition to gracefully tapered legs, lending to Nadia's unique, organic curves and instantly likeable appearance. Choose your frame from a variety of natural wood finishes and lacquers, as well as a powder coated metal base or chrome base for an additional upcharge. Pair it with a bentwood or fully upholstered seat to give Nadia a look that's all your own.
